

MAGNESIUM PEPTIDES

Full Spectrum Whole Food Magnesium

Finally, a magnesium patients will actually take consistently. Kingdom Health Sciences Magnesium Peptides delivers a truly full-spectrum, food-based form of magnesium—chelated to organic spirulina using our proprietary VerdeMins® process—paired with clinically studied AB22 probiotic for gut resilience and environmental defense. Unlike isolated rock-based forms that cause digestive upset, this whole-food matrix provides a diverse range of magnesium compounds as found in nature, supporting optimal cellular absorption while protecting against the environmental factors that deplete magnesium stores.

More than a mineral—it's daily cellular fuel.†
