

# MEMORY

Get to the Root. Fix the Cause.

Chronic stress is the #1 cause of memory and focus issues—fix the stress, restore the mind. This neuro-adaptogenic formula is designed to support cognitive clarity, memory, and focus without overstimulation. Featuring clinically studied KSM-66® Ashwagandha (27% cortisol reduction), Rhodiola Extract, and fermented turmeric, ginger, and galangal—it nourishes the brain while helping the body adapt to stress and preserve long-term mental sharpness. Elevated cortisol directly impairs hippocampal function and memory formation. This formula addresses the root cause while providing direct cognitive enhancement.

*Most brain supplements ignore stress—this one starts there.<sup>†</sup>*
