

# MICROPLASTICS

## Eradicate Environmental Toxins

Microplastics are everywhere—in food, water, air—and building up inside our tissues. Remediate Microplastics formula is built to help break that cycle. Combining *Bacillus licheniformis*, *Bacillus*-derived enzymes, gut-soothing botanicals like fenugreek and okra, plus Menasol™ humate extract, Shilajit, and targeted liver + kidney peptides, this formula supports binding, breakdown, and safe removal of plastic residues while reinforcing your gut's first line of defense. True modern detox, done right.

*First practitioner formula for the plastic age.†*
